DO THE WRITE THING

One time my brother keon was with his friends James, Carol, and Ej was walking keon half way home. James, Carol, and Ej were like be careful. So some man was right behind him and keon dropped something and the man was like what you doing in my yard and my brother said I was just getting something. And then he started to run after him and he ran home and told my mother (Sonya) and my daddy (Larry). My daddy was fighting him and when I went outside the police was here and my daddy went home and the men went to jail. We had to go to court and I said something and he said something back and I was saying something to him and it was over and we went home and he went back to the jail cell. We were so happy and everyone was not very happy with the man in jail. The man came to my door when he got out and hit me and he went to jail right then.
The cause of the violence because he is stress of something that happened in his life and he is trying to get that back by running after other kids in the world and making there lives bad when they are still little kids and that they will go to jail just he did run after kids just like he did and do bad thing like he did. Nobody wants be running after kids at the age that we can have great jobs and we can be in college. People want to be in jail with people who did something he did. If we would of turn like him we would be on the streets in a box asking people for money. But no I don't want to do that at the age of 20 or 30 no not me at that kind of time. I would make up a club for teens to come and get of the street with all the violence. We can talk about want would you do if you seen someone getting bullied what would you do. I would have a question on the broad for them to answer for the class who ever gets it right they would be reward with something or they would go somewhere.
We will be the only club to be on the tour bus and go all around the world. We would be the best club ever all the teens would want to come to my club. We would go to washgton D.C. some people would want to be a member to the teen club. I would ask every member to come in free because every one should be able to be off the streets and they need some home training in there life. Because some people act like some crazy animals. Because they do not need to be on the trips acting on the bus or off the bus.
