 Violence is all around me
    And will never go away.
 Most of my nights I would
 Wake up to gun fire and sirens.
 I'm even afraid to go to school in the morning
 Because of the gangs that are all around me.
 Sometimes I wish I were in Wonderland
    But I really am in Gangland!

 Violence is everywhere
 Especially in school
 I hear arguing
 And then the Café bursts out
 Into a roar.
 You look back and there's a fight
 Selling drugs in school
 BB guns too just to show off.
 Really all of this violence is just foolish!

 What can I do?
 Youth violence is like a disease that spreads
    And doesn't have a cure.
 The best thing to do
 Stay away from violence!
