That's what violence does
Ruins your life
Destroys your future
That's what violence does
Puts bodies in boxes
And keep them from the light
That's what violence does
Takes you down a path
Away from others
That's what violence does

Kids can't play outside
Crime right at their door
That's what violence does
Dead, masters degree
No more family
That's what violence does
Not safe anywhere
Everyone's sacred
That's what violence does

Take away crime
That's what we can overcome
