Words are right but not violence

Violence is a thing
Violence can be stopped
Not with fighting
Not with anger
But with words
Yes words thats right

I'm not talking about right words
neither light words
But with the right words
Yes its true

You don't have to be blue,
Stick the right words together
like give
C'mon just try it it's just like
Tying your Shoe

C'mon just try it
it doesn't have to be long or short
But do it the right way
like saying evidence in the court

So do the right thing
Use the right words
Use them the right way
And all you have to say is
Go away, go away
Go away, violence
Go away
