Violence

Violence happens everywhere, and at any age.
Nowadays people reward teens with mistakes.
Hitting is the way we solve a problem and
drugs is how they relax.
Why do they do this?
I don't know, but
maybe it's all the bad
influencees in songs,
movies or people on
the street.
Education is not the
first priority anymore,
now we can't wait
to leave this place.
But let's fix it...
It's never too late...
