There are many ways people can show violence in our way of life. Sometimes people try and joke around, but it can still affect people. It has affected me a lot too. I have been bullied by someone. I almost tried showing violence to one of my friends, but I knew it was the wrong thing to do. There are two ways you can show violence. You can show it physically or mentally. There are many ways people can cause youth violence. One way is people can say bad things to one another. That its when someone can show even more violence. Also, people can hit you physically. Which all of this has happened to me a bit. I have been bullied in many ways. I try not to show violence a lot. But there are much more times then I have showed violence. Violence can be very common used against me and many others. There can be many bullies in our life. It is something that can happen everywhere. But there are many ways to show violence. I know that lots of people show it. I have been part of it and was stopping it. But it is hard for this to always be stopped. You really should try and stop it though. Violence is a thing that goes in everyone's life. Just like me. Violence can be in your life and even in my life. It is part of your way of life. It goes around or spreads around the world. Also happens to everyone. Some people become used to showing violence. They know when they have to show violence. But sometimes they choose to do it in the wrong way. People can use violence in a good action. But people do not usually. They think that violence is ok. Which I should know because I sometimes can do the same exact thing. But showing violence in a bad way is not a good thing to do at all. It could offend other people. Also you should try not to show violence by murdering or maybe even abusing others. If you do it in these kind of ways it can affect your life. Violence happened to me when I was playing a game. A kid started calling me names so I tried to defend myself. But then he started physically hurting me. So I did not know how to stop this. Which I could not stop it, it was very difficult. I had a feeling something was going to happen but I was not sure. So I did not know what to do. It was very unusual to me. I got scared of what was going on at that time. So I did not know what I should do back. This is how violence affected my life and how it could affect many others. I hope that you know what happens in your life its your responsibility. You have to make sure you take good care of yourself. Also of what you do.
