Violence Rap

In this rap there is something important it will be recorded in history like Michael Jordan. This happens all day it happens all night you don't hear about unless there is a fight. This is called violence when you see it don't say in silence. There is going to be consequences with that just sit down and listen to this rap. There is much more I forgot about bullying it happens from door to door stop it this is nonsense stop trying to act like this is a contest. Really I don't want to hear about this next time this happens to you better notify it.
