Let's Not Fight
Violence is bad

It makes me sad

When I see people who can be right

Go wrong and end up in a fight

I know people can go blind

With the anger and fire that rages inside

I'm sure there's another way

With no fighting so every one can be okay

No blood will be shed

Children can live without dread

Violence is bad

It makes me mad

So let's stop this fight

And make everything right
