violence is everywhere
in your neighborhood,
city, and state
But everyone has a choice
to participate or not

It's hard not to give up
Seeing those drug dealers at night
Afraid of what they can do.
And what you see
It's horrible and a terrible sight

Education is the key,
To help you succeed
You will have a good job in the future
And if you drop out of school
All you left with is nothing

You turn to drugs and alcohol
The wrong way to go
Now it's hard to say no
But if you try to get better
And if you don't give up
Things will go right

Programs can help you get better
You'll become a better person
Without the drugs to affect you
All is well when you change
Your life for the better
Take the violence away
Because you can and you should
