Violence is destroying everybody in this world. It's sad to say that it's everywhere you go, people are thinking this is a good way to solve problems, but the truth is that people are dying and the worst part is innocent kids are also dying. We just had a tragedy that touched everybody, 20 kids were shot at the Sandy hook elementary school. Violent people are hurt inside and think getting even is going to make them feel better, but it's really making things worse. Jealousy, racism, bullying, are some of the causes of violence. These days we still have people judging others because of their appearance or the way they talk. Everybody once in a while feels this way but we have to learn how to deal with this. Before we judge somebody or insult them, we have to think how we feel if we were treated like that. Try to talk, not to yell. Have a nice way to express your feelings. Respect others, how you wanted to be respected, think before you talk, and try to be nice to others. Sometimes it's hard but we all have to work together to try to make things better.
Remember we all are human beings and we all make mistakes. People are washing time getting into that doesn't resolve their problems. Try to be positive in life with parents and other people we can make it!

Love, Love
Remember we all are human beings, and no one's perfect! People are wasting time getting mad, that doesn't resolve their problems. Try to stay positive in life, with patience & love, you can make it!

Live, Love, Laugh
Good evening.

I'm not sure why we are discussing this method.

Let's see if we can find a way to solve this problem.

I'm not sure how to proceed.

Can you help me with this?
