Do The Write Thing
Change

Have you ever been bullied? Well I have and it is not fun. Violence is when someone kills themselves/other people. When someone is bullying another person. This is happening all around the world and it is bad. It's so bad I am scared to go and hang out with my friends. In my neighborhood it's the worst... wait why am I telling you this now then I won't have something to tell you later. Now it's a big difference from when my mom was a kid. Okay they had some thing we have, but it wasn't as bad as today. Because of violence in my life, my daily life has changed by not getting bullied and can change by being more nice to people. It effects my life because in my neighborhood there is a lot of people getting killed, so I'm scared of walking alone. Just a year ago my
brothers friend died cause of a gun shot. My whole family was crying because he was like a member of the family. In school I hear them say that I'm crazy cause I'm that I'm insane. People need to stop hating on me. I'm a nice loving, kind, and caring person so if you don't like me then just get out of my face so you don't have to see me. I am not gonna waste my time arguing with you, so move on with your life.

The cause of youth violence is guns/knives, drugs, and people talking about each other. At school these girls were fighting because one of them said online, "Oh... did you see that this girl thinks she's cool just because she went cheerleading. Now everybody is saying are ya talking about this, this, and this. There in drama which is another reason. Mostly girls are in drama because they like talking about other people. Now that she's in that drama she got sent to pc for the day. That means she can't come to the basketball game.

My next actions will be to tell a teacher when someone I'm in trouble. I will try to help people
When they need it the most. So when my friend is sad and needs some cheering up I be there for them. I'll try to get them out of the situation. Even very upset go to any problem. I know how it feels when people are always making fun of you. But the best way is to don't let it bother you. I think that's the only way to stop it. So people can know how it feels to be bullied.

Because of violence in my life has changed by not getting bullied and can change by being more nice to people. But now my life has changed a lot. Now I am not getting bullied. More people want to be my friend. My neighborhood is better. School is better. Everywhere I go it's better. Now that I'm older I know more. But it's bad for other people who are killing people, killing themselves. Like, the guy that went to the school and killed his mom and all those children. Everyone stop the Violence!
