Because of violence in our community, my mom is overprotective with me and my brothers and sisters. By Preventing it in my own home, and not doing it to the other people I love, I can prevent it in my own home by not ever hitting my two little brothers. I could not do that to other people by not acting mean or cruel to them, also by not bullying them. I could not bully them by not teasing, pushing and other stuff to them. Not bullying. Or hitting my brothers is what I can do about youth violence, what can you do about it?

Where is violence in your life or anyone you know that goes through violence. The action which I think of talking to Prevent violence is not doing it to anyone or anything that I love, and not doing it in my own home. This would change my life or improve it by my family being happy and not hurting. It would improve someone else's life by them not being the bullied. What can you do to prevent violence in your community?
