Do The write thing Challenge

How has violence affected your life? Violence looks like someone you love just got ripped out of your life. This essay will prove that you do not need violence in your life. Because of violence in my community I cannot look at the people the same way. I will do something about it so I can fix my community.

Violence has affected my life in many ways. This affected my life in many ways. One way is when I was 5 my two uncles started to fight and I felt like it was my fault. Also I saw on the news that a girl died because she was fighting. So do you want to fight now? So now that you heard what I have to say do you really want to fight now?

Causes of youth Violence are usually when someone wants something and
they don't have it. Youth violence is used by gangs who are still young. And by kids who want to be cool or want to make people think'there tough.

I used to have a friend and he was being bullied so I told him to tell the teacher and he did and he was never bothered or bullied again. If you were being bullied how would you react?

My next actions are to never ever let youth violence keep on going without being stopped. One time two kids were fighting even though I didn't know them I still stopped the fight by telling the teacher. That is what I do to stop youth violence. How do you stop youth violence?

In other words you still think youth violence will make you cool or tough? Well if you thought that you were WRONG. Our lives would be so much better if there is no youth violence.
violence or normal violence. These actions I will take will stop youth violence FOREVER! Well I told you my thoughts and I hope you will also take these steps because together we will break the curse of violence. FOREVER!
