What do you think about violence? There are 2 choices for you: is it good or bad. Well if you ask me, I think it's bad. Violence hurts everybody in many different ways. It can even give them a heart attack. If they have any type of disease, in which it affects peoples lives. They just love killing innocent people. Well violence isn't a good thing. This is a serious problem because their is so much violence. I fear more when I'm by myself. I think we should have more community meetings with the whole community. Violence has affected my life in many ways. I get scared, and I fear a lot more. Violence has affected my life every single day because you never know when they will murder you or who knows what they will do to you. Everyday I feel more and more unsafe because of violence (all sorts of violence). Everyday I fear more of me and the community around me because people haven't finished paying debut with other people. And they get super angry and will just disappear. I'm worried when I walk through the streets because it seems like they're always looking for someone to kill.
to my bus stop because it's unsafe early in the morning. I don't like violence.

Some causes of youth violence are horrible, sad, and especially unforgettable. Youth violence happens to everyone, including me and you. Youth violence causes so many sad things in life. Lots of parents are sad and heart broken because their children or family members have gotten killed by other strangers that don't even know those children/family members. There out by themselves. Did you know that 1 out of every 4 children are shot or killed everyday because of violence. In Connecticut, this teenage a boy killed so many innocent children and a teacher that was trying to protect the students at Sandy Hook's Elementary School.

I can do so many things to stop violence because there is so much violence. I feel more to be by myself. I think we should have more community meetings with the whole community. We can all do so many things to stop violence but people just don't try to stop the violence. There are so many innocent people that die for no reason. Just because someone misses a shot with a gun, it ends up hitting someone else. We should all stop the violence.
WE SHOULD STOP VIOLENCE.

Because there is so much violence, I think we should have more community meetings and spread the word. We should have more community meetings about gun and other dangerous things. Everyone should know that violence hurts everybody. We should all be active to make a change. I wrote this essay to make a change. I don't like violence. I want to stop the violence. It hurts me. I hope you think about it. I have finished it. I wrote my community meetings about gun and other dangerous things. We can come together and make a good thing. It hurts me. We can do something to guess. Nobody likes violence. It hurts when they kill.
VIOLENCE

THE FOR

ANN+ nobody can.
