Violence is Terrible!

All the youth violence in my daily life has changed my life because I see people being bullied, that makes me sad. I plan to start clubs where kids can be themselves without being made fun of or picked on. Violence is a major issue that needs to get better.

Violence has affected my life in many ways. One way is that I have seen kids be bullied or even pushed or hit physically. That makes me feel awful. Kids don't want to go to school and get an education because they are afraid of being bullied verbally and physically. They don't want to do any social activities or participate in anything because of youth violence. But what makes me feel the worst is that the kids who are being bullied don't want to try to make any friends or talk to people. Sometimes, when I want to say hi to people, they walk away or go to a different seat, or just ignore me because they are afraid of being name called, or to be tripped and pushed aside.

There are many causes of youth violence.
Some of them are, bullying, physical contact, (fights), and many more. Bullying is a major issue. It includes name calling, pushing, kicking, and just being mean. There are many causes of youth violence. Another major one is peer pressure, kids could persuade their friends to smoke or start drugs early, which is life threatening at an early age.

I could do a lot about youth violence. One thing I could do about it is that I could start a club where my friends, and a lot of other kids could just hang out. They wouldn't have to worry about being picked on or bullies anymore. I could also put up posters saying not to pick on or bully anybody.

I have been effected by youth violence because I see and feel awful because kids are being bullied, picked on, and made fun of every day. I wish I could start real clubs with my friends and other kids where they could just hang out and not have to worry about being bullied again. Youth violence is a terrible thing that has to be stopped or put to an end right away. Why not just be nicer to everyone? Conversation beats confrontation!!
