Youth Violence

More than 10,000 youth kids have been through violence, both mentally and physically. This includes bullying, fights, arguments that you can't stand against. Because of youth violence in my community, I have to watch what I do, say, or think because it may lead to serious problems. I plan to set schools to have a program that has a teacher that talks to the students about what they have been through. Violence has affected my life in many ways like I have to be more personal to my stuff. I have to be more careful of what I say, do, or think because it may lead to serious problems. No one knows who is a good friend or a bad friend. Since I've seen big fights, arguments I know how it starts and how it ends, so I try to keep myself out of that.
Some causes of youth violence can be big and small. It all depends on the problem. If it's a fight you may come out bleeding or bruised. It might end friendship or a bond with a family member. Some will take it to serious and make think of suicide or may kill other people for revenge.

To stop youth violence by helping out people that have been bullied or been in a fight with a friend or family. In school there should be a place where students can come and talk to a counselor to help out.

Because of youth violence I've to be more personal to myself. Youth violence can cause big and small problems, that's why schools should have a place in school that they can come and talk to so they can help them out. So please Ms. Johnson help me out and lets save lifes!
