"Do the Write Thing” Essay

Violence is Not The Answer to Our Problems in Life

My First thought, when I considered this question was that violence had not affected my life in any meaningful way. However, the more I thought about it, I realized the violence has affected my life and other lives of my generation. This is true for may before us, and in many ways. We suffer because of increased crime and violence against kids like me, and you. Violence has affected the way we play and go about our daily lives.

Teenagers in the generations before us could play outside. Now in this generation, teenagers can’t enjoy that kind of freedom without violence. We learn to entertain ourselves at home and communicate through new forms of media. Increased violence has forever changed the way we live.

In my opinion, violence happens because people do not have answers. Sometimes I think people in desperate situations feel like they don’t have anywhere or anyone to turn to for help. They even give up. I think people who can’t find the answers turn to violence and this harms many people in the community. It is time we all did the right thing!
