Do the “write” things essay

Have you ever witnessed a fight or a crime before? It happens everyday and every year. People are dying, it’s just not right. I remember witnessing a crime before and I was very young then. I was at a carnival and everything was going well until two guys started fighting with each other. I was really scared and next thing I knew; I heard two loud gunshots and everyone started screaming. The fighting and the murdering has to stop so can we, as young and grown citizens, put a stop to it?

Youth violence has many affects on people. In the crime that I witnessed, the man that died was about 23 years old. Youth violence is not right at all because people die way too young. The man’s mother was heartbroken when she heard about her son’s death. She always loved and cared about her only son. Youth violence makes people lose loved ones. Youth violence is not right because it has too many affects on people’s lives.

Youth violence has many causes and that’s why many people are dying everyday. Days after the crime at the carnival occurred, the story was then published on newspaper. In the newspaper, it stated that the murderer had access to the gun from his friend. That’s one of the causes of youth violence-people have easy accessibility to handguns. The newspaper also stated that the murderer had mental issues. Mental issues are also a cause of youth violence. The causes of youth violence makes the numbers of murders grow and grow.

I want to stop youth violence and I am willing to stop it. I want people to stop stealing guns or take guns when they find them. I want to put an end to drug dealing because drugs are another reason why people are dying everyday. More after school programs would be a good thing to create, so fewer kids would hang out with friends and
do the wrong thing. More kids should be leaders instead of followers. We have to set positive examples for youngsters. The violence has to stop once and for all.

Youth violence has affected my life in many ways. Many of my family members have died because of drugs and youth violence. Youth violence has made too many young people die. Gangs are the number one reason why youth violence is caused. Youth violence and drugs are not right and I want to do something about it. I want to put an end to drug dealing. I also want to create more after school programs so less kids will have a chance of going out and doing the wrong thing. The youth violence has to stop NOW!!!
