violence

all years in prison, even 10 year old don't listen,
violence got in your mind, and that's all the reason.
violence is a crime that's messing up peoples mind
its not really a good thing. Violence is so
bad that it can bring you to prison. There's a
time where you'll realize that violence was so bad
but to bad you're in prison.
in prison you'll learn your lesson
you will fill the pain
you'll even see how its seeks by getting
beat up all day

you can stop using violence by going
to school all day. Once violence came in your
way you stand up and say no way.
violence is a pain, violence is everywhere
if you're someone who uses violence
please stop by the way.
