"A bad day in school"

One day in school I had a problem with my friend. He was tacking bad about me. Instead of us fixing by tacking he caused problems. He wanted to fight out side of school and that’s were the big problem stared.

Before this all stared we were best friends. One rumor stared going around which was not true. My friend took it like it was true. I told him that It was not true. He did not believe a single word that came out of my mouth.

The next day people were telling me that he was tacking bad and starting rumors about me. That’s were it hit me. I knew that my friend was gone. A week had passed and as we all know one rumor can turn into lots of lies. That day we tacked about the problem but like I said before he did not believe what I said. Our relationship as friends had faded away slowly till there was nothing there. From that day we were not friends we were enemies.

The next day we could not sit or be next to each other at all. We got in trouble for tacking and saying bad words at each other. My teacher asked me if I was okay. I told her what was going on. She told me
to not do anything stupid. She also told me to try to solve our problem by tacking not by doing any thing physical.

I followed her advice and tried to solve our problem but it did not work. He did not want to tack to me and he did so. I told my mom and dad what was going on. They told me to do the right thing. I tried to do my best but some how my bad side got the best of me. That same day he was making a seen in the social network in other words as facebook. He was calling me out in other words he wanted to fight with me.

The next day I woke up feeling bad. As I was driven to school by my mom I thought of all the good times me and my friend had and also the bad things. As we drove up to school and I got of the car my mom told me have a great day, don’t do nothing bad or stupid that you will regret.

Usually I waited outside for my friends to come but that day I went straight up to my classroom. I went to the school counselor and told him what could happen toady and he told me don’t fall for this. If anything happens today don’t be a part of it call a adult. If anything violence is not the key to solve this
problem. I told him that I will try my best to follow what he told me.

At 8th block he told me to meet him after school. I told him no how about we sit down and talk about it he said no. When I heard this I knew what I had to do. I told a adult that there will be a chance that there will be a fight after school. He said thank you for telling me. As the day came to an end he was waiting for me out side of school. I told every one there was not ganna be a fight to go home. I told him to stop and lets talk about it. And we did and we ended up releasing that we were fighting over noting. We ending up being friends again and now we look back at this day and say good thing we did the right thing.
