Wanna be the best person
Wanna live long and happy
Wanna be able to see things that you have never seen before
Well how about we have talk
I want you to stop the violence
I want you to be the person to change things
Forget all about drugs and fighting is cool
Cuz its not it makes you look stupid
It hurts your family
And I know it hurts me
I may be strong
I may not cry
I may say things
But that doesn't be I hurt inside too
Just like you
So lets sit down and stop the violence
Im tired of the news that someone died
And he or she was only 16
Laying on a stretcher like it was a bed to rest like no
Your mommy worries like is that my baby
Is that my baby
So lets make a pledge to stop the violence
To be a new person
To start something new
Cuz I wanna end the violence
Do you to want to end the violence
Cuz I know I do
Violence
