Violence had never affected my life like others had. I had never have a family member been shot or been killed, been on Drugs, been on a shooting rampage, or even have family violence. So Violence never really affected me and my family. However, there are other families and People that are affected by violence. So many people everyday, been shot and killed by others. Every time I turn on the news, there are some reports of shooting and murder. I think that’s why our government is on this Gun Law. So here is one of the many reasons of what makes youth violence today as we know.

One of the many reasons that cause youth violence is just very simple. There is drugs, bullying, fights, car crashes and many other horrible things related to violence. There so many things related to violence, that I couldn’t even think of it. But I must go on. There are also cyber bullying, home invasion, revenges, stabbing, cursing house fires, and being hit by a car or a truck. Bullying and Fights can be found at Schools, while car crashes, home invasion and other can be found in the public. The Final Part of what is related to youth violence is families against other families. Yes, there are some families that are against other families. That is one of the many causes of what youth violence does to many other people. Maybe even you maybe one of those poor people affected by youth violence.

So, to make things much better to you people, here is what I would do about youth violence. If I see someone get shot by someone else, I would call 911. If I get bullied, I would tell a teacher or a family member, or for a better example, if I was in a fight, I would just run as fast as I could. Like that there so many things related to youth violence, well, there are so many things that you could do about youth violence. Like, if you have a friend that is doing something bad, tell them to stop it and also tell them that it’s not the right thing to do. Smoking and taking drugs can affect your heath, so you could just quit it. Being drunk while driving your car can cause you in a car crush, so don’t be drunk while you are driving you car. And lastly, please don’t go on revenge on someone you always hate, you could go to prison. In Fact, don’t go on a home invasion, shooting rampage, bully someone, and don’t try to kill someone. Don’t do the wrong thing and try to hurt other poor people, do the right thing and that way it could make your, and someone’s else life better then ever. Better then you had ever had in your own life. Just Do The Right Thing, and that way, you could make a difference in someone’s life. Just Do The Right Thing and not the wrong thing.
