Do the write thing.

Violence affected my life in a few ways. Violence affected my life because of the Joker accident at the movie theater and now I'm scared to go see a shooting movie. When I went to go see the Dark Night Rises I was scared because I thought it was going to happen to me. Also when I went to go see the Dark Night Rises I was almost under the table because I was very scared that was going to happen again. When I go see movies at the movie theater I never go see a movie at night I always go in the early afternoon. Now when I see movies I'm always at home so nothing can happen to me. That's why violence affects my life.

I think youth violence caused by a few things. Youth violence is caused by gangs, drugs, and bullying. It's caused by gangs because they can be in your neighborhood and cause problems like shooting, and make other places not like our neighborhood, and you don't want that to happen for your friends and family. Drugs are not good for your neighborhood and it makes your neighborhood look bad and you don't want that to happen. Drugs are bad for your body and your life, if you do drugs you can die at an early age, and your family doesn't want that for you. When you do drugs your going to end up selling it, and you can start fights, and kill people because drugs or gangs. When your are getting bullied you are going to be sad for your childhood and they are never going to forget that person for the rest of your life. Another way when you are being bullied you get scared to tell someone because they thing they are going to say they are
going to stop but it keeps getting worse. Those are three reasons of what causes youth violence.

What I can do to stop youth violence is to tell them to not stay on the streets and more. Another thing is to make the kids go to the Boys and Girls Club because I go there, and the staff tells us that the Club is our home and anyone can go. That’s one way to stop youth violence. Another way is to try to make friends with those kids, and try to help them be good, and do the right thing in life. One way to stop youth violence is to make them go to the community center where they live so they can get off the streets, and you can ask for help if you are struggling in school or at home. The last way is to ask them if they like to play sports and ask your friends if they want to play and get a game going on the basketball court, or the football field, or baseball field. These are some reasons of what I can do to stop youth violence.
