Support

even with a husband
wife pair
There is room for
despair
It all over the news
on the tv, violence
is all you see.
The violence that is all
around gives us
panic were all walking
around like were manic.
When people think there older
they start to get crazy
they do things that make them
seem like a baby to us.
Older people are forced in to violence
lives when they
know there is more to life
violence is a weapon it own knife
