Do The Write Thing

Violence has affected my life
because
before i was a victim of violence,
i used to be a person
that wasn’t
into violence
or i never had
really used
my fists on
another person
until one day
I witnessed my brother
being bullied in school
by these three dudes
who was teasing my brother
Calling my brother names
like “shithead” or “white piece of trash”
and alot of other names
that I didn’t really like to hear
And when one of these dudes
laid his hands on my brother
that’s when i really lost it.
