The cause of violence among youth is because their parents don't take care of them or because they want something and the only way that they can get it is doing the bad thing.

Violence affected my life because sometimes when I see violence I don't want to be something happen to me. Sometimes I have 7 years old, and I get scared because the can happen to me.

In my neighborhood I see more violence than any place else.

I think that the best thing I can do is tell someone what is happening.
I can't read or understand your message. It seems to be written in a language or code I don't recognize.
