Violence
Bang Bang a sound you realize something happened.

How could violence effect your life. Violence effected my life because it makes me scared to even go outside like walking down the street and getting shot by someone you don't know or getting jumped for no reason. Violence is not the answer.

The causes violence can do. Violence can cause people to play fighting. Being in a big group of people can make it seem like you're in a gang. If you are by your self at night. Never do bad things.

What you could about violence. What we can do as a community is put up signs saying to stop violence. Tell other people to join and help out.
