Violence

Violence causes pain and destruction
Thugs, gangs, even the police causes these
Everyone is affected by violence
All the crying won't help
No one is around
How could they hear you
You can't trust nobody
Kids fight because of peer pressure
Kids are not influenced enough these days
They don't turn in the right direction like a lost tourist with a map
All the new technology are getting people shot
All the Iphones and Ipads everything
Gunshots go off
BANG! BANG!
Death happened right on the block
Another person to prison
Another family ruined
Children scared
Parents worried
Neighbors afraid
It's all over the news
The only thing we need is hope.
