The Pain Of Violence

The sounds or images of violence hurts us all when knowing that something eventually falls.

It could be love or community that couldn’t stay stong Violence happens because the bullies are hurt maybe because their whole lives they were treated like dirt.

Having to see this hasn’t been pleasant why does this have to happen in the time of my presences.

There’s nothing much that I could say to make all this hurt and pain go away.

There should be a group for violence so that all this pain could be forever silence.

Violence is something so serious sometimes it has you wondering curious.

All this violence is a shame why do we have to play all these harshful games.

A kid could come and stab someone with a knife but hey we are forced to deal with it cause its life.
