Violence?

What is violence to you?
Fighting? Threats?
I can't walk down the street without feeling terrified of not getting physical or sexual abuse
People in gangs and some people with is the people you have to look out for.
I'm sad with no hope about the stars in the sky,
Gangs are just a whole bunch of some want to be drugs selling, rap artist, killing people.
But they aren't!
They are killing people to get the anger off.
Why do they need to die?
Now I am seeing gangs on the streets and now around my school.
Terrified! Mad! Insane!
I am mad like someone is stabbing me in my throat and my blood is coming out of my stomach.
Why are you using violence?
To express your feelings, anger, or just showing off what you worked on,
People trying to be like other people
Thinking that they are cool,
But you aren’t
Parents not watching what your kids are doing
Drugs
Violence?
They are not the answer
School is the answer
Education
Get somewhere in life!
