How Was Violence Affected My Life?

Violence affected my life by making me upset, worry, and sad. Also it make me feel scare and afraid to go outside alone and I don't feel confident to go outside to play in the park with my family and friends.

What Are the Causes of Youth Violence?

The causes of youth violence is by children and adult are watching a lot of violent movies that say bad words, do things that students and adult are not suppose to be doing and that show people how to do dumb and violent things. Another thing that causes of youth violence is by playing a lot of video games like Call of Duty or Black Ops because it show you to kill the enemy and now people got that in their head or mind and they do it too. Also if parents are too busy because of their jobs and they have to pay the bill, their children have to stay with someone else and maybe that kid will get angry of their parents for not spending time with them and taking them to fun places. When parents teach their kids to not respect their elders like teachers, parents, and other older people and nothing good thing, when they grow up they will start doing violent things. When people are jealous of other people's property, they will do a lot of things to get what they want.

What Can I Do About Youth Violence?

I can speak about God and the word that say in the bible because if people follow God and believe in his son Jesus there would be less violent things. First we need to say to all the people that God and Jesus love us no matter if we don't love him back. Second, parents should teach their children the word of God and they need to follow and obey the commandments of God. Third, we all should love one another and each other because that's the most important commandment of God and if we follow it then there would be peace in the world and there would be no more violence. Also if suppose that in schools there would be a teacher that teach us about
the bible and what God wants us to do, teach us how to pray, and teach us to sing songs about God. Last, people should take out all violent things like some movies and video games, and put movies and games about God, Jesus, and people from the bible. In money, it says "In God We Trust," but it should be a little more bigger, and there should be more church and bibles. If we do all of these things, there will be no violence, only more but peace.
