In the summer there was shooting across the st from my house. I don’t remember much but I will try to give a summary. This is all that I remember that these guys were fighting and then some guy pulled up in a black suv and started shooting at this blue house were the guys were fight and the guy that was in the house came out a gun and started shooting back and forth at each other and no one got hurt. I think it was a drive by shooting. It made me feel sad because that was my best friends dad who was defending my friends house and her family. I felt a little bit sad because what if you were in the fight and you almost got shot? It would make you feel sad too if you see it with your eyes. It was my first time seeing a gun fire. It did not happen to me it happened to my best friends dad but it it makes me feel sad a lot. There is a lot of people that like to cause trouble and they like to start fight. My community should of called the cops or tried to stop the shooting. Talk to them tell them that violence is not the answer. Call the cops and let the cops know about the incident. Violence is bad. It can get you in a lot of trouble.
