The Hood Life

Violence
Is like a devil itself when you see,
When you talk too much
You would get blown away
like the wind
is better to see and
Keep your mouth closed
like a zipper,
People talk trash everyday but when the bullets

Click, clack
The sound of the of gun ready to shoot some bullets
when you see some one doing something wrong
do not go around and start snitching because what goes
around comes around like a Holly hoop

you think you are gangster right let me give you a advice do not go around
acting all
tough because you would get smoke like a cigarette so keep your
mouth close
and do right choices if you do not the devil would
kill you, without mercy
