How violence affected my life is I have to pay attention to my surroundings because I don't know what is happening. Violence affected my life is I have to mind my own business so I don't get in to any problems with people. Violence affected my life is I have to use my common sense. I'm outside and everywhere I go because because people die from other people, violence affected my life is the way I walk to school and back, violence affected my life by the people who I hang around with. How violence affected my life is the way I talk to people and the way I interact with people. Violence affected my life is the way I am in school to grow up and not exposed to it. Violence affected my life by the way I'm growing up. Violence affected my life by the things I do. Violence affected my life by the way people mainly treat others.
