We see gun shot in the middle of the streets
some of us have parents that fight
The rest think this kind of killing is all right
Freedom is what called this
Freedom is what cause it

Me? I know violence when I see it
to me violence is when classmates fight
violence is when I hear kid and teacher argue
I think violence scarce most people
Because of all the loud noise,
Booms and Bangs next you see a desk fly.

to me violence is like spider
it ties you around it stileley web
the weigh
The darkness pulls you down
and later you rip from that long web
and fall into a deep pit.
The only way to escape it is
By string to climb back up
into the light
