violent I am not
when I was growing up I got taught
They don't know shit. They get hurt
for 7 years later they'll be real in the dirt

Why do they do it if there going get caught
but that just keep going and they end up getting shot
It's not worth it. They think there tough cause they live in the hood
But it's dead and I know better
There horror out there that can't teach there bad. You better learn
now before you get done.
