Robbery

The safe looked black as the night, which was fitting because the crime happened at night. The safe had jewelry in it. My family got the safe to keep the items safe.

The safe was a place to keep expensive gold
If you steal from it the items can be sold

The safe was shiny and black
The items in it could be thrown in a sack

Young people try to be gangster
But in all realness they’re really wangsters

We never got anything back from this day
The important lesson is to not fall to their way
