Do the Right Thing Essay

Around the Way

A neighborhood white boy from around the way
Seeing hustlers hustle for that money because they never got paid
Been given the look no matter the time day
Gang violence does affect me in multiple ways
A plague that gives you chance to back away
Others join because they need a place to stay
Hear the crack of the gun, it's time to run
Shots fired meant for somebody else but it's the innocent one
Now look what you've done

You started a war, but it's only just begun
