Violence In My Life

Violence affected my life in a shocking way that I didn’t expect. I don’t wish for this to happen to anyone, it was two days before Christmas arrive. I remember I was at Squash Busters and my mom, dad and sister were at the doctor and my brother was at school and no one was at home. I also remember that I got a call from my mom telling me to take the train home by myself because she told me that they had broken into our house and she needed to get home fast because the police was in the way to our but I started crying because it was really a bad news for me so Becky a Squash teacher offered to take me home. On my way home I couldn’t stop crying because this news gave a really hard punch to my heart. When I got home I went running to my mom and she gave me a hug and we both started crying. When I went around the house my brothers and my moms room were the only rooms the robbers stole the most things from for example money, electronics Christmas presents and jewelry this make me think that robbers were young people there the most interesting in those objects they stole.

My family and I cared about what they stole because it took a lot of hard work to earned the stuffs that were stolen and then they just take them like it was nothing. We felt really sad and devastated even now when we remember about what happened we get really sad and start crying. Anytime we go out and leave the house we hope and pray that no one breaks into our house again but we are thankful no one was hurt or killed.

Violence is everywhere around this world. Violence can be caused by many different causes for example people who decide to make the wrong decisions in life. Jealousy, bullying, gangs and fighting and many other things but if we all do something about it violence can end one day.

Violence causes many bad things if you don’t do something about it for example people can break into your house whenever they want and steal a lot of things that took hard work to get. It also causes death to many people. I hope violence can ones end and never come back but I think is going to take a lot of hard work for my hopes to be reach.
