Violence

The reason why these things happen is for a lot of reasons. Drugs, gangs, violence from TV and video games, and other things. The most common issue is people be talking about other people in a negative way. "You're fake." "You're fake." "You're fake." Hearing these same lines over and over again. People just need to stop because when kids will do that when they get older. That's just gonna create more problems.

What can we do to stop the Violence? By doing many, but simple things. Be the role model that people never had. Some people don't even know and/or what it feels like to have a role model. Another way is that don't let them play games or watch movies that have violence. Kids may call us as duty and end up killing people. We should unite and make it stand.
