Violence has affected my life of memories of past violences. In 2008, I heard on the news about 9/11, and that it hit in New York. When I heard that it happen in New York, I felt sad because my uncle lives in New York. Another memory is that when I was 8 on my birthday, I heard gun shots and some police got gun down. I still have the memories of them.

What causes youth violence? Terrors is one of them. Some countries are jealous of other countries and so, their will want to attack them. Another cause is guns. Some people take a bunch of guns and kill people. One last cause is other weapons. If you were to ask me, I think weapons is the main cause of violence. These are the main cause of youth violence.
How can we stop youth violence.
One way is to tell an adult.
It is the most common thing
to do. Another way is to
start a petition rally to end
youth violence. Also, you can
make an anti-gun control violence
system. As you can see, there are
many ways of stopping youth, so
make a decision and stop youth
violence.
