Violence In My Life

Violence will always affect my life. I see violence almost everyday in my neighborhood. I live next to the projects. I always see red and blue light through my window. Violence has caused me not to go to the corner store by myself. When I do, I always feel that I will get shot. I always dream that a bad guy will come in my house and murder me. I had these dreams since I was about seven years old. When I would wake up from an bad dream I would never fall back a sleep.

When I was in fifth grade I use to get bullied. I would get bullied because I was short. I was bullied by two boys in my class. They would always make fun of where I come from and my family. I always tried to hold my tears but it hurt so much. I would run to the bathroom and burst into tears. It made me feel like I was one years old. They made me feel like I wasn't important and so was my family. They thought that they were more important then everyone and if you told them that they wasn't, they would yell at you. I think that they were bullying me because both of their mothers got shot in the head and they want me to feel the pain they had. I
Victoria To My Love

I know you'll always affect my life. I see

Victoria almost everywhere in my neighborhood.

I was next to the house. I always

See a girl I like. She was there to of the house

and I say hello to her. We passed by. And

She said hello to me. I said "Hi" and we..."
don't get why they were bullying me. I never did any thing to them. I always wanted to kill myself. I would get a knife and put it up to my neck but would never do it. I was just too afraid and I didn't want to die and can't see my family. Every single day I wanted to kill myself more and more. I let them get to the best of me and because of that I didn't want to go to school. I would always tell my mom that I don't want to go to school. I hated myself and thought I was ugly and I would never tell anyone. I would always say I'll stand up for myself tomorrow but I never did. They made fun of me every single day. They put kick me signs on my back. I would go to my spot to cry (the bathroom) everyday and could hear them laughing. Thing got worst. I was getting low test scores and when I saw my third bad grade I knew I had to end this bullying. When they made fun of my family and where I came from I would just walk away. They were following me and one of them said "Why you walking away." I turned around and put my hands on my hips. I asked "What did I ever do to you?" "What?" one of them said. "I'm sick and tired of you two acting like your better than everyone. If you don't stop I will tell on you." They just
I'm so stressed out at work and I feel like I'm losing my mind. I don't know what to do. I'm feeling really overwhelmed and I just want to run away. I don't know how to cope with it all. I need a break. I'm just so tired. I just want to have fun and enjoy myself.
laughed. "Fine." I said and went to my teacher and told her all the things they did to me. They said I was lying because I didn't like them and I was really making fun of them. I wanted to yell and scream at them. They were really lying to the teacher. I proved it because I showed the teacher one of the kick me signs they put on me. They were sent home early that day. They never bothered me again.

What are the causes of youth violence? The causes of youth violence is being abused or neglected. Also drug sellers can cause youth violence. They can cause kids to be drug sellers. Also guns can cause youth violence.

What we can do about youth violence is we can make a no bullying program. Also when you are getting bullied make sure you tell someone that will help you right away. Help end youth violence. We can change the world.
Worse than I ever imagined, I was afraid that the teacher and the students would not understand me. I wanted to be heard, and so I turned to the teacher. They offered to help me and suggested that I rise.

The causes of youth violence are varied. They can cause kids to feel angry or feel that they are not appreciated. Violence can be spread verbally and physically.

If we can make a no-bullying program, we can stop this. We can also make sure that bullying is not acceptable. We can help our friends to understand this.

Violence, we can change. The world.
