Violence

Violence has not only affected my life, it has affected many people in this world's life. Violence to me means physical action or something wrong being done. Violence affected my life in Dominican Rep. On the news, a lot of people die by shooting, drunk people fighting, even stabbing. That affected my life because I use to go out riding bikes and go to the store by my self. I can't do that no more because we never know what can happen. It also affected my life because I can't sleep at night thinking "what if someone just comes in my house?" Those are some ways why violence affected my life.

I can help stop violence happening in my life by not starting trouble with people and minding my business. That can stop violence.
in my life because people won't think negative of me and won't think of doing anything negative harmful to me. These are some ways I can stop violence in my life.
