Date 3/6/13  Violence Free Zone

Violence was inflicted in my life because someone called my mom ugly, and I punched him in the gut. I got detention and got in trouble. The cause is the guy has to have medical problems, or medical surgery in the stomach. I can stop and prevent this type of violence. First, you become a victim. Then, tell the teacher. Or any adult that may help you. Then, the teachers will tell you to write a report of what happened. Next, the teacher will get the suspect and give him a consequence. Finally, the teacher will say "When ever you need help call a teacher." That's how violence was brought to my life.
