Jail Time

The time I went to jail. One day at school I was bullied by this girl named Isabelina. She was a girl in my class in the 6th grade, she used to bully me every day by slamming me in the knee and pushing me on the floor and calling me names and teasing me. I got so tired of them teasing me and bullying me. That after school the day after Thursday I meet up with Isabelina and I had a pocket knife in my hands if something went wrong. I was talking to her when things went bad the only thing I remember is me going into a cops car in the back seat when I got into the car I felt bad for my mother. Because her youngest daughter going to jail. Violence affected my life because when I see the news I see how this girl got killed because they were bullied and that hurt me even though violence affected my life.

The causes of youth violence is that on the news I see young people killing each other just for being at the wrong place and the wrong time. People being killed are on of the causes of youth violence another cause of youth violence is that people can get trauma those are the causes of youth violence.

What can I do about youth violence? I can not use violence in my life and when see youth violence I will tell my mother or teacher. That's what I can do about youth violence.
Violence
